

VR CONSULTANT L.L.C-F.Z

An ISO 9001, 14001 & 45001 Certified Company

WATER & WASTEWATER • ENVIRONMENT • CATALYSIS • ENERGY

Engineering a cleaner, more sustainable tomorrow.

Engineering and project management consultancy delivering sustainable, value-added solutions, from the first idea through to completion.

1994

Established

OEM & EPC

Turnkey delivery

UAE & India

Global reach

Who We Are

VR Consultant is a free zone global company based in Dubai, U.A.E., under the patronage of the VR Engineers group in India, an OEM & EPC turnkey solution provider since 1994.

We deliver engineering and project management consultancy in water and wastewater treatment, environmental, catalysis and energy, including zero or near-zero liquid discharge systems, pilot and feasibility studies, and environmental and energy audits.

We collaborate with clients on feasible techno-commercial solutions.

Water Treatment Plant

Purpose, Vision & Mission

PURPOSE

We have a responsibility to our planet, its people and future.

VISION

A global firm that drives sustainability by providing holistic and innovative solutions.

MISSION

To become a leading environment firm.

OUR CORE PRINCIPLES

Diversity

Integrity

Innovation

Collaboration

Sustainability

Impact

Integrated solutions, end to end

Consultancy, disinfection technology and engineering services under one roof.

Water & Wastewater

- ◆ Membrane filtration | Ion exchange
- ◆ RO and packaged STP plants
- ◆ Zero / near-zero liquid discharge

Environmental

- ◆ Solid waste, e-waste & plastic management
- ◆ Spent catalyst refining
- ◆ Recalcitrant organics removal

Desalination & Chemicals

- ◆ Desalination using membranes
- ◆ Water & boiler water treatment
- ◆ Corrosion inhibitors, speciality chemicals

Consultancy

- ◆ Feasibility, pilot & EIA studies
- ◆ Project management | O&M
- ◆ Environmental & energy audits

Disinfection Products

- ◆ UV technology
- ◆ Ozone technology
- ◆ Electro-chlorination (onsite)

Engineering Services

- ◆ Computational fluid dynamics (CFD)
- ◆ Finite element analysis (FEA)
- ◆ 3D drawings

Our Expertise

- ◆ E-waste and plastic management
- ◆ Spent catalyst refining
- ◆ Desalination using membranes
- ◆ Advanced oxidation processes
- ◆ Water treatment & speciality chemicals
- ◆ Sustainable energy | Energy audit
- ◆ Environmental remediation
- ◆ Environmental compliance & audit

"Environment and Sustainability is the future of tomorrow."
